4
5    Jukka Paasonen [Synchronicity PBS]
6
7    Version    2.1    29/04/2005
8
9    The configuration file for publishing a title.
10   This example shows you how to publish titles quickly via ftp or the web site.
11
12   Minimum requirements for filled info are:
13     title
14     subtitle
15     synopsis
16     description
17     pricetype
18
19   List of categories or / and channels where this title belongs.
20   If you define some other status than 4 or 0 (read more later), atleast one of these
21   should be filled.
22   If you do not know which channel id or category id is the correct one,
23   you can still choose it while publishing via web site.
24
25   Two letter language code by ISO 639-2. For English EN, Italian IT and so on.
26
27   Country form where the content is from , format as ISO 3166-1-alpha-2.
28
29   The actual event taking place.
30
31   Base caliber for the dynamic pricing. 1.00 stands for 100%,
32   0.00 for free, and 100.00 as the maximum value.
33
34   Pricetype can be:
35   1 = Only the total title
36   2 = A clip / many clips can be choosed for licensing
37   10+ = A value higher than ten, represents the minimum number of seconds that must be
38   licensed.
39
40   If title is a part of some bigger group, for example many publisher have been
41   shooting Britney Spears parking her car, they can make up a group for all of those
42   clips.
43
44   Restrict certain areas by country name or some other.
45
46   Allow preview download for all possible visitors in the site (value 1) or
47   only allow to be downloaded by registered users (value 0).
48
49   Status of the title, can be one of the following :
50   0 = draft, only you can see it and leave it for later editing
51   1 = private for the country where the content is from
52   2 = private for the channel which is defined earlier in this document
53   3 = private for the system so only registered users can view it
54   4 = public, everyone can see the informations but preview download can still be
55   restricted
56
57   Creation date of the content (date_content), for video it should be
58   the date and approximate time when it was shooted.
59   Format is "yyyy-mm-dd hh:mm".
60
61   The date and the time on the server when the title becomes available for licensing.
62   Before this time, the title cannot be viewed on the site (date_start).
63   Format is: "yyyy-mm-dd hh:mm".
64
65   The date and time on the server when is the licensing of this title ends (date_last).
66   Format is: "yyyy-mm-dd hh:mm".
67
68   Both "date_start" and "date_last" can be left blank for disabling the limitations.
